REGISTER OF CURRENT OBSERVATION OF ECONOMIC AND SOCIAL CONDITIONS IN VARIOUS AREAS OF AFRICA
PREFACE

In the present issue of the *Register*, for 1969, the sixth so far published, the arrangement of previous issues has been followed. The information has once again been obtained through questionnaires completed by scholars and other persons engaged in research. The Editors would like to thank all those who cooperated in this way. In some cases when there was reasonable certainty that the previous year's research was continuing the entry was repeated even though there had been no reply to the questionnaire.

The Editors have endeavoured as far as possible to present the entry in the form given by the contributor and this has led to the redefinition of certain projects which have nevertheless retained their former entry number. In the present as in previous issues reference is made only to scholarly publications in preparation or in the press on the understanding that published works will appear in a bibliography to be published by the Institute at a later date. It should be understood however that works published in Ethiopia are already listed in the Institute's annual *Ethiopian Publications*. A strict demarcation between works about to be published and those actually produced is often impossible as each issue of the *Register* takes several months to prepare. Readers should note that publications listed as being as in the press in previous issues are not repeated again in the current issue.

It is with regret that we record the death of the noted Ethiopicists Father B. Velat, Prof. C. Armbourg and Professor B. Oscar Barry.
KEY TO SYMBOLS USED IN THE REGISTER:

(a) Approximate starting date of the project(s).
(b) Approximate date of completion.
(c) Publications: in preparation.
(cc) Publications: in the press.
(d) Research sponsorship: Government, University, Foundation.
(e) Research assistants.
(f) In case of University theses, Professors supervising the work.
(g) Other information (if any).

ARRANGEMENT OF ENTRIES:

Entries within each section are arranged in alphabetical order of persons or, exceptionally, of research projects.

NUMBERING:

Each entry is given an index number for purposes of cross-reference in future Registers. In cases where a project was included in an earlier issue of the Register the number given in it is also included in the present Register and put at the end of the entry with the date (.65, .66) etc. added to it.

DATE OF INFORMATION:

The Register as far as possible records the state of research in late 1968 and 1969. Where entries are made for completed research, the word “completed” has been inserted.
